Protecting the environment
Vauxhall's commitment to the environment goes beyond protecting our natural resources. We are dedicated to working with various organisations and operating units to reduce our environmental impact, and we strive to offer products that are as environmentally sustainable as possible. We believe in using renewable or recycled materials where possible, and we continue to develop new technologies to help reduce our carbon footprint.

In the event of an accident...
Vauxhall's dedicated accident department can provide you with a range of services, including scene-of-accident advice, message service, mobile following an accident, and support with claims and vehicle recovery. Sureguard Assistance offers benefits such as roadside assistance, courtesy car hire, and legal assistance with claims.

For more information...
For more information on Vauxhall's efforts to achieve an environmentally sustainable future, see our website at www.vauxhall.co.uk/environmental.

If you've never been shy about exploring new territory, it's great to know that you can now go anywhere in complete confidence – with stylish design, genuine driving excitement and innovative versatility.

Antara. The bold way to drive with style.

This brochure covers Antara E, S and SE models only. Some of the vehicles shown in this brochure include options and accessories available in Europe. Please check with your retailer for further details.

EXPLOR...
EXPLORE…

…your enthusiasm for creativity.

Bold lines, flowing curves and perfect proportions – Antara has the most expressive style in town. Compact, sophisticated and elegant, yet tough, dynamic and ready for an active life – with imposing alloy wheels, roof rails and protective skid plates. Be inspired by your new Antara – wherever your drive takes you.
EXPLORE...

...your reputation for individuality.

Wherever you're headed, go your own way. Don't just be different – do it with style and purpose. Just like the new Vauxhall Antara, your perfect companion.
EXPLORE...

...your passion for the finer things in life.

The Antara interior is full of light and space, with high quality trim, premium finishes and incredible levels of equipment. Leather trim, electronic climate control, MP3 format, sat nav and heated front seats are all available. And a high driving position gives you confidence, control and a great view of the road ahead.
EXPLORE...

...your talent for lateral thinking.

With room for five adults and up to 1420 litres of versatile loadspace, Antara is more than a match for your active lifestyle.
EXPLORE...

...your need for adventure.

If you’re going to get out and about, do it with style. Antara’s powerful engines and intelligent four-wheel drive let you discover true freedom.
Driving dynamics

Go anywhere any time.

Developed with the driver in mind, the Antara features sports suspension that together with a unique combination of intelligent four-wheel drive and electronic chassis safety systems gives an unrivalled drive.

Electronic Stability Programme (ESP).

Every Antara benefits from a unique interaction between switchable ESP, Traction Control (TC) and Descent Control System (DCS), all working together with the intelligent four-wheel drive to deliver high degrees of driving satisfaction, comfort and active safety. If a wet roundabout or muddy corner catches you out, ESP applies corrective braking to help you regain control. TC helps maintain traction under acceleration.

Intelligent four-wheel drive.

Few of us need permanent four-wheel drive; so the electronically controlled Antara system switches automatically between two- and four-wheel drive as conditions demand. In normal driving, power goes to the front wheels only, saving fuel at the same time. And when conditions turn difficult or slippery, four-wheel drive is automatically engaged, switching the drive as required to the front and rear wheels for optimum traction.

Intelligent ABS.

The Antara Anti-lock Braking System (ABS) is supported by Emergency Brake Assist, Electronic Brakeforce Distribution and Cornering Brake Control, making the car even easier to control and stop, in emergency cornering and braking conditions.

Descent Control System.

DCS enhances driver control on slippery slopes by maintaining a constant incline descent speed. Fitted as standard equipment, it allows drivers to make potentially tricky descents more comfortably and at safer constant speed.

Intelligent ABS. The Antara Anti-lock Braking System (ABS) is supported by Emergency Brake Assist, Electronic Brakeforce Distribution and Cornering Brake Control, making the car even easier to control and stop, in emergency cornering and braking conditions. See page 43 for more explanation of ESP, DCS and intelligent four-wheel drive.
Safety and security that surrounds you.

The new Vauxhall Antara takes great care of you and your passengers. With a wide range of the latest safety features, from front fog lights to adaptive brake lights – even on-the-move monitoring of the tyre pressures – be assured, you are in good hands.

Front lights. For safer winter driving, front fog lights are standard on every model, recessed into the lower valance. Xenon headlights, with dynamic beam levelling and high-pressure washers, are standard on Antara SE.

Tyre pressure monitoring system. Any Antara SE models permanently monitor individual tire pressures using sensors located on the tire valves, displaying the information on the colour monitor. If a significant pressure loss is detected, the colour monitor displays the offending tire.

Parking distance sensors. This clever Vauxhall system helps safeguard your car when parking. Sensors in the Antara SE bumpers provide an audible warning when they sense an object left – or in front of – the vehicle, making it altogether easier to park.

Vauxhall ISOFIX. The outer rear seats on every Antara model are fitted with secure mounting points as part of the ISOFIX child seat restraint system. Used with the Vauxhall accessory DUO ISOFIX child seat (but included), this actually eliminates the dangers that can result from improper seat installation.

Security features. Remote control central deadlocking, ultrasonic security alarm system and an electronic engine deadlock immobiliser are standard on every Antara. Our clever door-to-door illumination feature keeps the dipped headlights and rear lights on for 30 seconds to light your way as you leave the car.

Tyre pressure monitoring system. Any Antara SE models permanently monitor individual tire pressures using sensors located on the tire valves, displaying the information on the colour monitor. If a significant pressure loss is detected, the colour monitor displays the offending tire.

1/6/07 11:49:51
Change up for driving excitement.

Antara’s high-tech petrol and diesel engines provide strong performance – on and off the road. Coupled with a choice of manual and automatic transmissions, they’re perfectly matched to the car’s intelligent four-wheel drive.

**Automatic transmission.** Rare for this class, a five-speed ActiveSelect® automatic transmission is available (at extra cost) with the 150PS 2.0CDTi 16v diesel engine. Electronically controlled features include an adaptive driving function and a winter mode.

**Manual transmission.** Both petrol and diesel Antara engine choices come with a slick but sturdy five-speed manual gearbox.

- **2.4i 16v petrol.** The Antara E 140PS petrol engine is both responsive and responsible, combined with high torque (220Nm max.) for effortless flexibility. This new Vauxhall engine has balancer shafts to ensure smooth power delivery through the five gears.

- **2.0CDTi 16v diesel.** Delivering 150PS and 320Nm of low end torque, the Antara diesel choice features the latest common rail technology, combined with variable turbo geometry for superior performance and economy. Like the Antara petrol engine, starvation from 20,000 miles/one year service intervals.

**Diesel Particulate Filter (DPF).** Diesel Particulate Filters provide an effective means of reducing particulate emissions into the atmosphere. The maintenance-free Antara unit can cut the output of harmful emissions by over 90%. That’s why it’s standard equipment on the 2.0CDTi 16v diesel unit.

**20/2020 T13971 Antara Launch.indd 18-19**
Seating position. You don’t just sit high up in Antara. You relax in total comfort, thanks to driver’s seat height, tilt and lumbar adjustment, plus a reach and rake adjustable steering column. S and SE models feature heated front seats – with three separate heat settings.

You’re in command and in control. Antara’s high driving position and commanding view are complemented by a softly sculpted facia designed to make driving easy. Clear instrumentation and displays are matched by ergonomic positioning of all the switches and controls.

Cruise control. Standard on Antara S and SE, the easy-to-use cruise control system allows you to maintain a steady speed without keeping your foot on the throttle. So it’s more comfortable on long journeys and easier to keep to speed limits too.

Quality audio. Standard on S and E and CD 30 MP3 stereo radio/CD player plays MP3 tracks from CD. Every Antara has seven speakers and steering wheel-mounted audio controls.

Sensing features. The Antara driver environment is packed with clever ideas helping you concentrate on the road ahead. On S and SE activate the rain-sensitive wipers and they’ll switch themselves on automatically when it rains. Automatic lighting control does the same for the headlights when it starts to get dark.

Satellite navigation. Standard on Antara SE or you need never get lost in traffic again. The DVD 100 stereo radio/ six-disc CD autochanger has MP3 CD format, sat nav with a colour monitor and fully integrated mobile phone connectivity with voice activation and Bluetooth® wireless technology.*

Bluetooth®. With Vauxhall’s accessory mobile phone adaptor*, your phone interfaces with the car’s audio unit for full operation via the steering wheel controls and face plate. Bluetooth® wireless technology with voice activation is included. Standard on Antara SE models.

You’re in command and in control. Antara’s high driving position and commanding view are complemented by a softly sculpted facia designed to make driving easy. Clear instrumentation and displays are matched by ergonomic positioning of all the switches and controls.

Handbrake. The uniquely styled handbrake and passenger grab handle reflects not only Antara’s premium quality level, but its sturdy SUV character. The same close attention to detail is also evident in the minor trim inserts and the detailing to the steering wheel and gear knob.

Interior features

Centre console waste container. The removable waste container – with lid – is yet another neat Antara idea, making it easier to keep the car tidy. Available on E and S models it mounts conveniently in one of the two centre console drinks ‘indents’, easily within reach, next to the handbrake.

Air conditioning and ECC. Standard on Antara E, air conditioning makes for a fresher interior atmosphere all year round. S and SE models move up to Electronic Climate Control enabling you to maintain the interior temperature to within a single degree, and even keep your drinks cooled inside the glovebox.

Take it easy in style and comfort. Inside Antara you’ll find premium comfort and convenience blended with contemporary style. A comprehensive range of available features will make you and your passengers feel at home. Sit back and enjoy the ride.

Heated front seats. On Antara S and SE models, heating elements in the seat backs and cushions enable the front seats to reach a comfortable temperature in a very short time. There are three separate heat settings.

Rear drinks holders. Conveniently mounted at the rear of the centre console, the two pop-out drinks holders are the perfect place for en-route refreshments, and typical of Antara’s attention to rear passenger comfort. The whole unit can be stored conveniently away when not in use.

Heat-reflective windscreen. On Antara S and SE models, a multi-layered coating inside the windscreen reflects the sun’s heat, helping the electronic climate control maintain a pleasant – and constant – temperature inside the car.

Leather trim. Antara SE models feature stylish leather seat and door trim, in Charcoal or Saddle Brown to suit your exterior colour. It’s complemented by high gloss, wood-effect décor trim on the facia and doors, adding to the upmarket feel.

Front centre armrest. The centre console includes a comfortable armrest. Open the lid and you’ll find more storage space for loose items like sweets, coins, CDs, and other personal effects.

60/40 split-folding rear seats. All Antara models feature a 60/40 split-folding rear seat with adjustable backrest. Tilted forward into the upright position, these provide extra usable luggage capacity.
As versatile as you want to be.

Maximum flexibility inside – numerous possibilities outside. Clever use of interior space, coupled with some equally smart feature innovations means that the Antara load area is not just capacious, but hugely versatile.

**Flex-Fix®**

Available from early 2008, the revolutionary Flex-Fix® rear carrier system incorporates an integrated carrier for two bikes, so you don’t need a separate roof or rear carrier. Most of the time Flex-Fix® stays hidden, but when the need arises, you simply extend it, attach the extra rear lights, fix your bikes to the carrier and off you go.

**Spacious load area.** Open the tailgate. Enjoy the space. An incredible 1420 litres of loadspace to be exact – with the rear seats folded forward. Even with all five seats in use and the luggage compartment cover in place, a 928mm long floor translates to as much as 370 litres of loadspace – easily enough for several large suitcases. If you need room for longer luggage, the rear seat back is 60/40 split-folding, so you can carry what you need and still have room for rear seat passengers.

**Practical stowage.** Antara has plenty of clever storage space. In the front you’ll find door pockets, drinks holders, a sunglasses storage pocket, passenger seat undertray and storage in the front centre armrest. There are drinks holders and front seat back storage pockets for rear passengers too.

**Flex-Organiser®**

Antara is pre-fitted with mounting points for our innovative accessory Flex-Organiser® system – side rails with sliding hooks and specially devised storage nets and pockets. With all your belongings safely in predefined compartments, it’s the smart, versatile way to manage your load area.

**Roof rails.** Antara’s stylish silver-effect integral red rails don’t just look good. They’re the perfect starting point for the Vauxhall roof rack system. Attach the accessory base carrier and it’s ready for a wide range of lockable travel boxes and other specialist fittings for ski and more.
EXPLORE...

... your flair for individuality.
Standard features include:
• Intelligent four-wheel drive
• Sakhalin Electronic Stability Programme (ESP) with traction control
• Anti-lock Braking System (ABS)
• Driver and front passenger’s airbags
• Front seat side-impact airbags
• Front and rear seat full-size curtain airbags
• Air conditioning

• Engine deadlock immobiliser
• Remote control central electronic security alarm system
• Remote central two-stage central deadlocking
• Door-to-door illumination
• Steering column adjustable for reach and rake
• Front fog lights
• Automatic soft leveling rear suspension (diesel models only)
• Retractable luggage compartment cover
• Silver-effect roof rails
• Electrically adjustable/fixed door mirrors
• 17 inch alloy wheels with 235/60 R 17 low profile tyres

Irmscher sports silencer with dual branched split oval design chrome-plated tailpipes.

Developed in conjunction with auto design specialists Irmscher International, Antara styling accessories perfectly complement the vehicle’s lines, and are manufactured to the same exacting standards as the car itself. The model illustrated features a body-colour front lower spoiler, cross hatch grille with aluminium upper and laser-etched ‘Irmscher’ logo, side running boards, stainless steel door handle covers, uprated and lowered spring kit, 20-inch Evo Star alloy wheels and body-colour rear roof spoiler.

Floor mats. Offered in a choice of styles (rubber and velour), Antara floor mats help protect your vehicle’s carpet from everyday wear and tear. All mats have an anti-slip underlay.

Base carrier and premium bicycle carrier. This innovative carrier has a moulded profile that holds the bicycle upright, leaving both hands free to secure it. Two bicycle carriers may be fitted onto the Vauxhall accessory base carrier (closed), which supports a range of travel boxes and other attachments.

Tree bar and DIN electrics. Tree in confidence with the detachable Antara tree bar. Twist it in or out the way when you don’t need it. And it’s easy to mount when you do. And naturally it’s tested to comply with top European standards.

- Alloy-effect door sill covers.
- Body-colour door mirrors.
- Chrome-effect window trim.
- Two-tone horn.
- Tinted glass.
- Rear view camera.
- Split-screen facility.

Satellite navigation

The DVD 100 satellite navigation system uses the International network of GPS Global Positioning System satellites, linked to a comprehensive mapping system to determine your precise location and guide you to your chosen destination virtually anywhere in the world. It offers front-road navigation across most European road networks.

Entering your destination has never been easier, as you can input your journey quickly and effortlessly, and pick it up as you leave the store. The colour monitor has a split-screen facility, which displays half of the screen as a map route while the other half shows directional arrows to give immediate information about road junctions and exit points. If that was not enough, there are audible voice prompts to give details about road numbers and motorway junction numbers too. You can even plan your route to avoid toll roads.

DVD 100 includes a route guide that allows you to browse details of destinations, hotels, and other points of interest. These details can include information such as pictures, addresses and benchmark numbers.

Selecting your desired destination enters it straight into the navigation system.

The DVD 100 uses the Traffic Message Channel (TMC), a system of application of EBD used for broadcasting real-time traffic information. It is delivered to the driver either visually or verbally. TMC can also offer dynamic route guidance – alerting the driver to a problem on the planned route and calculating an alternative route to avoid the incident.

Mounting on the centre console, the phone system base can be fitted with a cradle (available as an accessory for many different mobile phones. A list of available cradles is featured in the Vauxhall Car and Accessory Price Guide.)

The system is fully integrated into the audio and communications systems. It features voice control and will connect seamlessly to pharos with bluetooth® technology all the required information is displayed on the colour monitor where a mobile phone icon is used, while the menu is easily navigated by either the steering wheel audio controls or the multi-function button on the radio. Certain functions can also be controlled by voice activation.

Mounted on the centre console, the phone system base can be fitted with a cradle (available as an accessory for many different mobile phones. A list of available cradles is featured in the Vauxhall Car and Accessory Price Guide.)

The system is fully integrated into the audio and communications systems. **Technical data**

**Transmission**

Five-speed manual and automatic services available.

**Engines**

- **2.0 16v ECOTEC-4**
  - Maximum power: 140PS (103kW) @ 5200rpm
  - Maximum torque: 220Nm (162 lb.ft.) @ 2400rpm

- **2.0CDTi 16v ECOTEC-4 Turbo diesel with Diesel Particulate Filter (DPF)**
  - Maximum power: 150PS (110kW) @ 4000rpm
  - Maximum torque: 320Nm (236 lb.ft.) @ 2000rpm

**Transmission options**

- Five-speed manual
- Automatic

**Finance**

Transmission services available.

**Performance, fuel economy and emissions**

- **2.0 16v**
  - Acceleration (0-62mph): 12.4 secs
  - Urban fuel economy (mpg/litres/100km): 32.5 (7.7) / 15.5 (8.0) / 32.7 (7.5)
  - 190

- **2.0CDTi 16v**
  - Acceleration (0-62mph): 11.1 secs
  - Urban fuel economy (mpg/litres/100km): 41.5 (6.8) / 18.0 (13.6) / 29.4 (9.6)

**Vauxhall Assistance and warranties**

- A one-year unlimited mileage manufacturer’s warranty
- Second and third year no-fee customer care warranty up to 60,000 miles
- Vauxhall Assistance for 12 months from first registration
- Severe body panel set-off perforation warranty
- Multi-point sequential fuel injection
- Common rail fuel injection
- 20,000 miles or 1 year (whichever occurs sooner)

**Vauxhall Assistance and warranties**

- 6 years’ body panel anti-perforation warranty

**Brakes**

- Anti-lock Braking System (ABS)
- Dual circuit, diagonally split braking system
- Front ventilated discs: 296mm diameter
- Rear ventilated discs: 303mm diameter

**Performance**

- **2.0CDTi 16v**
  - Performance (manufacturer’s figures):
    - Urban: 12.8 secs
    - Extra-urban: 25.9 (10.9) / 19.3 (7.6) / 32.8 (8.6) / 238
  - Fuel economy (mpg/litres/100km):
    - Urban: 29.4 (9.6)
    - Extra-urban: 41.5 (6.8)

**Suspension**

- Front: Independent Lightweight MacPherson struts with gas-pressure dampers and coil springs.
- Rear: Independent Multi-link with coil springs and gas-pressure dampers.

**Vauxhall Assistance and warranties**

- For details on your vehicle’s warranty, please see your Vauxhall retailer for details.

**Fuel tank capacity**

- 65 litres (14.3 gallons)

**Transmission**

- Optional transmission

**Optional transmission**

- Five-speed automatic transmission with Active Select function
  - Available at extra cost on 2.0CDTi 16v models
  - Electronically controlled with adaptive driving function and winter mode
  - Fluid drive with torque converter lock-up clutch and Active Select.

**Steering**

- Speed-sensitive power-assisted steering

**Suspension**

- Front: Independent Lightweight MacPherson struts with gas-pressure dampers and coil springs.
- Rear: Independent Multi-link with coil springs and gas-pressure dampers.

**Brakes**

- Anti-lock Braking System (ABS)
- Dual circuit, diagonally split braking system

**Body**

- Aerodynamic drag co-efficient: Cd 0.38

Antara operates in front-wheel drive mode for optimum performance. When a vehicle is understeering excessively, ESP will apply a braking force to the inside rear wheel, slowing it down and increasing the vehicle's yaw angle to help the front wheels maintain contact with the road. This is achieved by the more powerful rear braking system. ESP will apply the correct braking force to the outside front wheel, which will reduce the yaw angle and the vehicle will come under control.

During the more unusual oversteering situation, ESP will apply the braking force to the inside front wheel, slowing it down and increasing the yaw angle to help the inside rear wheels maintain contact with the road. This is achieved by the rear braking system, which then activates the ABS to apply the required braking force to the outside rear wheel.

A Switchable Electronic Stability Programme (ESP) ESP helps the driver maintain full control of the vehicle during adverse or emergency conditions. ESP technology is designed to monitor both the front and rear wheels independently and compare their respective directions of travel with the driver’s steering wheel input. If either the front or rear wheels begin to slide, ESP supplies corrective braking to the appropriate individual road wheel, controlling the side and maintaining driving stability.

When a vehicle is moving excessively (ESP) will apply a braking force to the inside rear wheel, slowing it down and increasing the vehicle’s yaw angle to help the front wheels maintain contact with the road. The system then regulates the slide on the inside rear wheel and then applies the required braking force to the outside rear wheel, maintaining the driver's desired direction of travel.

In addition to the braking force applied to the outside rear wheel, the ESP system will also apply corrective braking to the inside front wheel, slowing it down and increasing the yaw angle to help the outside rear wheels maintain contact with the road.

D1. Switchable Electronic Stability Programme (ESP)

D2. Anti-lock Braking System (ABS) with cornering brake control

D3. Deceleration Control System (DCS)

D4. Electronically controlled four-wheel drive coupling

Technical data

### Exterior dimensions

- **Maximum length**: 4915 mm (193.2 inches)
- **Width between wheel arches**: 1740 mm (68.5 inches)

### Loadspace dimensions

- **Maximum width (behind rear seats)**: 1529 mm (60.0 inches)
- **Loading height**: 865 mm (34.0 inches)

### Luggage capacities (measured using the ECIE method)
