Protecting the environment
Vauxhall continues to lead the movement to reduce the environmental impact of transport. Low emissions engines, the use of environmentally friendly materials and a commitment to recycling are all part of our effort to produce cleaner, quieter and more efficient vehicles. For more information on Vauxhall’s efforts to achieve an environmentally sustainable future see www.vauxhall.co.uk/environment.

Fleet Customer Services
Our dedicated support team for fleet managers includes help with claiming Motability discounts as well as providing advice on customer retention costs, company car taxation and more. For further information please call 0870 010 0651.

Buying your car
DMS offers one of the most comprehensive and competitively priced ranges of leasing plans in the market. Please contact your local dealer for more details, or call the DMS customer service centre on 0845 712 3444.

Serviceware protection
Serviceware protection offers the benefits of full dedicated cover for three years from first registration, with comprehensive warranty coverage for high mileage or long-term owners. For details contact your local Vauxhall retailer on 0870 752 7626.

Serviceware Mobility advice
Mobility at Vauxhall means we can provide special mobility help and advice. Blue badge holders are entitled to very attractive rates for servicing and maintenance carried out at your local Vauxhall, no matter what your vehicle is.

Servicing and maintenance
The best way to maximise the performance and viability of your Vauxhall is to have all routine servicing and maintenance carried out at a Vauxhall dealer. It will help your primary retailer call 0845 600 1500.

In the event of an accident
Vauxhall Accident Support helps keep you mobile. If you have an accident which is not your fault, you can get a replacement car for up to three days with a service provided by a trained Vauxhall dealer. For more details contact your local dealer or call 0800 010 0654.

Vauxhall Assistance
Vauxhall Assistance offers the benefits of 24-hour roadside assistance for three years from the date of first registration, with Sureguard protection for three years from the date of first registration, while Sureguard Assistance offers the benefits of 24-hour roadside assistance. For more information please call 0845 600 1500.

Sureguard Warranty
Sureguard Warranty offers the benefits of a three-year warranty, with Vauxhall Assistance for three years from the date of first registration. Contact your Vauxhall retailer or call 0845 600 1500 for a free brochure on Sureguard Warranty.

Vauxhall Insurance
Vauxhall Insurance offers a comprehensive range of cover for policies designed specifically for Vauxhall drivers. For a highly competitive quote call 0870 024 0240 or visit our website at www.vauxhall.co.uk/insurance.

The GM Card
Rebate Points are earned on purchases using The GM Platinum Card. You earn money off a new Vauxhall/Saab by accumulating Rebate Points under the Rebate Points Programme. Vauxhall Motors Ltd is solely responsible for the operation of the Rebate Points Programme, which is subject to the Rebate Points Programme Rules. You can redeem up to 2500 Rebate Points subject to the Model Line Maximum which will vary in amount in relation to your model.

Sureguard Protection
Sureguard Protection is available for new and used Vauxhalls, a Vauxhall insurance policy offers a unique package designed specifically for Vauxhall drivers. For a highly competitive quote call 0870 024 0240 or visit our website at www.vauxhall.co.uk/insurance.

For a copy of this brochure in large print, Braille or on audio tape, please call 0845 600 1500, or via our telephone service on 18001 08456 785 785.
Remember the smell of freshly cut grass? Or how blue the sky looks after summer rain? The world becomes more vibrant when you experience it through an open roof. Your biggest dilemma? Deciding who gets to come along for the ride.

The real world is rarely as simple as black or white, open and shut. It’s not as certain an art, nor as the unpredictable vagaries of the British weather. Which is why the Tigra has been designed to give you two answers to every question. It’s a coupe – smart, head-turning and well-insulated against mother nature’s gloomier mood swings. Yet, within a few seconds, it’s also a roadster – and the elements suddenly become a whole lot more elemental. That’s because every Tigra comes with an electrically retractable hard top as standard. You can also choose between zingy 1.4i 16v and punchy 1.8i petrol engines or a super-economical 1.3CDTi 16v turbodiesel. Whatever Tigra you choose, people are going to notice.

This brochure covers only those models listed in the contents. Some of the vehicles shown include options and accessories available at extra cost. Due to the features about optional available summary model, equipped with the equipment and promised that features have known to as well optional. Please review hind most as well optional. Please refer to your review hind most or found the Vauxhall website: www.vauxhall.co.uk

Self-indulgent?
Sadly, you can only have one best friend. At a time.
A perfect fit for the life you live.
Take control of your space.

Just where does it all go? How does a coupé become a roadster and still leave a boot that’s hungry for luggage? You could spend hours pondering the question, but the answer is simple: ‘compromise’ just isn’t a Tigra word.

Good looks can get you so far, but real talent takes you further. Tigra looks great, of course. Strong athletic lines and a low, sporty stance project plenty of the right sort of visual attitude. But this is a car that has also been engineered for the incessant demands of busy modern life. The electro-hydraulic retractable hard top opens or closes in under 20 seconds. As a coupé you’ll find Tigra benefits from a modern, spacious cabin. Yet even in roadster form, with the roof stowed, there’s still loads of space for shopping and bags under the power-operated boot lid. Not qualities that you would associate with more traditional roadsters. And the logic behind this is simple: why should you have to downsize your lifestyle just because you want a sporty car? With Tigra, you’re not expected to.
People are staring. Don’t you just love it when that happens!

Yes, they’re looking. Stealing surreptitious glances as they walk past, staring greedily from inside other, more ordinary cars. Are they envious? Jealous? Or just wanting to see the magical hard top do its thing?

Tigra’s looks demand attention, making it a car for those who want to rise above the crowd. As a coupé its distinctive roof profile works in harmony with the strong lines of the body to create some real visual impact. And as a roadster there’s no mistaking the serious intent of Tigra’s wide, purposeful look and those chunky alloy wheels. Once people know how good it is to drive, they’ll be ‘really’ jealous. And that tingling sensation? Don’t worry, it’s just the ‘that’s my car’ feeling. You’ll get used to it.
The simple things in life are best. So why shouldn’t you have some simple luxuries?

Great design meets a superb driving experience in Tigra’s cabin. Modern, upmarket materials and well-thought-out ergonomics ensure it looks and works brilliantly. All Tigra models come with sports seats as standard incorporating six-way adjustment to ensure the optimum driving position, while the leather-covered steering wheel adds a welcome touch of luxury to the driving experience.

A selection of powerful audio systems, including CD units with MP3 compatibility, ensures that you can always choose the perfect soundtrack for every road. And a wide range of optional extras makes it easy to personalise and enhance Tigra, from air-conditioning and cruise control through to heated leather seats.
For grown-ups who go out to play. Where would you like to go next?

Tigra harvests plenty of respect on crowded city streets – but it really comes alive as you head out into the wider open spaces and discover the soul of a true roadster.

With lively engines and a superb chassis you’ll discover a brilliant dynamic driving experience and that Tigra is far more than just a pretty face.

At the heart of every Tigra lies a brilliant chassis, specially tuned for high stability, impressive grip and superb ride comfort. Perfectly matched with a tough roadster bodystyle, speed-sensitive power-assisted steering and wide, low profile tyres, it also gives you a real sense of control. And each of the three engines – two petrol and a high-tech common rail turbo diesel – offer outstanding response. For rapid progress, choose the 1.4i 16v with Twinport technology for strong performance and impressive economy. Now with the option of a five-speed Easytronic transmission – a manual and automatic all rolled into one. For real performance try the 125PS 1.8i 16v, taking Tigra Sport from 0-62mph in just 9.4 seconds. And if you prefer to spend even less time at the pumps, go for the super-economical 1.3CDTi 16v turbo diesel, for stacks of mid-range punch and a massive 61.4mpg in the combined driving cycle.

WINNER OF
WHAT CAR?
'GREENEST OPEN TOP CAR' AWARD*

What Car? experts said: “The two-seat Tigra’s 61mpg average makes it the most fuel-efficient open top car on sale in the UK, so you’ll save money at the pumps as well as saving the environment. It’s a combination that marries open-top style with genuine green credentials.”

*1.3CDTi 16v model.
When it’s sunny, everybody wants a roadster. And when it’s raining? Don’t be surprised if everybody wants a Tigra. Because with a roof this clever, Tigra’s got everything covered.

So where’s the nearest reflective shop window? Tigra’s magical transformation from coupé to roadster is pure street theatre, something you’ll want to see yourself. Operated by an ultra-smooth electric-hydraulic system, Tigra’s hard top folds away in seconds under the protection of the boot lid, which cloes to leave the handsome roadster lines unbroken. It’s quick, easy and completely painless. The advanced roof construction also means that you’ll find some serious luggage capacity beneath the power-operated boot lid, a commodious 640 litres of room with it up and a very impressive 250 litres when the roof is lowered. And with a deep boot even bulky coolboxes fit with ease. Even more space is found in a deep stowage compartment behind the seats that gives another 70 litres of storage volume. Sexy and sensible, that’s Tigra.

Can’t decide between coupé or roadster. Have both.
Tigra

Tigra is all about turning heads – without costing the earth. All versions come with the electro-hydraulic retractable hard top, power-operated boot lid and excellent standard equipment.

Standard features include:
- Electro-hydraulically operated retractable hard top in body colour
- Matt aluminium style hoops behind seats
- Sports suspension
- 15-inch alloy wheels (steel spare)
- 185/60 R 15 low profile tyres
- Sports seats
- Leather-covered steering wheel
- Stereo/radio/CD player
- Steering wheel mounted audio controls
- Dark metallic-effect centre console
- Anti-lock Braking System (ABS)
- Driver’s and passenger’s front and side-impact airbags
- Remote control central deadlocking
- Tilting steering column
- Electrically operated windows
- Electrically adjustable/heated door mirrors

Spotlight on Tigra

Tigra

Tigra Sport
Celebrate your individuality.

Vauxhall by Design is all about giving you more choice. It allows you to select your new car and personalise it to your individual tastes and preferences. Designed to enhance every aspect of Tigra ownership, you can choose from a range of factory-fit options (including VXR Styling Pack One), in addition to a wide variety of useful accessories.

Inspired by the hugely successful VXRacing team, Vauxhall VXR styling products come with all the same experience, knowledge, and passion for style and performance. They put the accent firmly on quality, and exclusivity, with a winning edge. And they add that personality and excitement to every Tigra model. VXR styling products are available as factory-fit option packs or accessories fitted by your Vauxhall retailer. Please refer to the Vauxhall Car and Accessory Price Guide for availability details of the full Vauxhall VXR range.

There is also a host of other styling accessories produced by auto design specialists Irmscher International – a name synonymous with sporting flair for more than 35 years. For more information, ask your Vauxhall retailer for the Car and Accessory Price Guide, or alternatively visit our website at: www.vauxhall-accessories.com
Tigra options can make life better in so many ways. Alloy wheels, entertainment upgrades, air-conditioning. Available individually or in special option packs at great prices. You'll find further information on availability in the Equipment section. Or you can ask your Vauxhall retailer.

Individual options:
- Five-speed Easytronic transmission
- Air-conditioning
- Electronic Stability Programme (ESP)
- Automatic seat occupancy detection for passenger's airbag
- Rear parking distance sensor
- 17-inch five-spoke alloy wheels with 205/45 R17 tyres
- Remote control alarm system security (alarm system standard on Tigra Sport)

Leather Pack (Tigra Sport only).
- Leather seat facings, head restraints and door trim insert panels
- Electrically heated sports seats

Plus Pack.
- Cruise control
- Driver information centre incorporating check control warning display and multi-function trip computer

CD 70 stereo radio/CD with MP3 and satellite navigation with monochromatic graphic information display.

Travel Pack (standard on Tigra Sport).
- Windbreak
- Retaining net for storage area behind seats

****
Safety

Standard features
- Driver's airbag
- Passenger's airbag
- Side-impact airbags
- Energy-absorbing steering column
- Pedal release system
- Head restraint passenger safety cell
- Deformation zones front and rear
- Fuel tank located ahead of rear wheels
- Burn-through door locks
- Side-impact protection pillars
- Integral protective side door padding
- Matt aluminium style hoops rollover protection
- Anti-lock Braking System (ABS)
- Body-sway restraints protection system
- Tightens the seatbelt during the early stages of a frontal impact
- Seatbelt force limiters
- Reduces potential upper body injuries during a severe frontal impact
- Anti-submarining ramps in seats
- Holds prevent occupant sliding underneath the seatback during a collision
- Height-adjustable head restraints
- Electronic Stability Programme (ESP) with traction control
- Anti-lock Braking System (ABS)
- Driver's airbag
- Anti-lock Braking System (ABS) and ESP work independently and compare their respective directions of travel with the driver's steering input.
- ESP helps the driver maintain full control of the vehicle during adverse or emergency conditions. ESP technology can operate as a warning tool beforehand or as a full control system during an actual emergency.
- ESP will apply a braking force to the inside rear wheel, slowing it down and increasing the vehicle's yaw angle to help the front wheels change direction as the outside rear tyre has become overloaded and begun to slide. In this instance, ESP will help the driver to complete the necessary lane change successfully by responding in the most effective manner to help the front wheels change direction.

Additional features
- Electronic Stability Programme (ESP) failsafe function
- Front and rear heated seat options
- Power steering
- Electric windows
- Electrically operated mirrors
- Remote central locking
- Folding key
- Body-lock seatbelt pretensioner system
- Reinforced passenger safety cell
- Pedal release system
- Centrifugal force brake booster
- Anti-lock Braking System (ABS)
- Body-sway restraints protection system
- Tightens the seatbelt during the early stages of a frontal impact
- Seatbelt force limiters
- Reduces potential upper body injuries during a severe frontal impact
- Anti-submarining ramps in seats
- Holds prevent occupant sliding underneath the seatback during a collision
- Height-adjustable head restraints
- Electronic Stability Programme (ESP) with traction control
- Anti-lock Braking System (ABS)
- Driver's airbag
- Anti-lock Braking System (ABS) and ESP work independently and compare their respective directions of travel with the driver's steering input.
- ESP helps the driver maintain full control of the vehicle during adverse or emergency conditions. ESP technology can operate as a warning tool beforehand or as a full control system during an actual emergency.
- ESP will apply a braking force to the inside rear wheel, slowing it down and increasing the vehicle's yaw angle to help the front wheels change direction as the outside rear tyre has become overloaded and begun to slide. In this instance, ESP will help the driver to complete the necessary lane change successfully by responding in the most effective manner to help the front wheels change direction.

Equipment

Standard features
- CD 30 stereo radio/CD player
- AM/FM stereo radio with 24 station presets
- Digital clock with automatic RDS time adjustment
- Seatbelt force limiters
- Height-adjustable head restraints
- Electronic Stability Programme (ESP) with traction control
- Anti-lock Braking System (ABS)
- Driver's airbag
- Anti-lock Braking System (ABS) and ESP work independently and compare their respective directions of travel with the driver's steering input.
- ESP helps the driver maintain full control of the vehicle during adverse or emergency conditions. ESP technology can operate as a warning tool beforehand or as a full control system during an actual emergency.
- ESP will apply a braking force to the inside rear wheel, slowing it down and increasing the vehicle's yaw angle to help the front wheels change direction as the outside rear tyre has become overloaded and begun to slide. In this instance, ESP will help the driver to complete the necessary lane change successfully by responding in the most effective manner to help the front wheels change direction.

Additional features
- CD 30 MP3 stereo radio/CD player with MP3 capability
- CD 70 stereo radio/CD player with MP3/satellite navigation
- Cruise control
- Multi-function trip computer
- Additional feature

Audio equipment

Standard features
- AM/FM radio
- RDS with Traffic Programme
- CD player
- CD player with MP3 capability
- Audio equipment

Additional features
- 20 watts per channel output
- 4 speakers
- 20 watts per channel output
- 4 speakers
- Electronic engine deadlock immobiliser
- Remote control two-stage central locking with security deadlocks
- Freewheeling door locks
- Remote display
- Folding key
- Rev counter
- Display panel showing time, date, audio information and outside air temperature (with ice warning function)
- Monochromatic graphic information display
- Trip odometer
- Visible Vehicle Identifi cation Number (VIN)
- Electronic theft protection for Tigra Sport

Additional feature
- CD 30 stereo radio/CD player
- AM/FM stereo radio with 24 station presets
- Digital clock with automatic RDS time adjustment
- Seatbelt force limiters
- Height-adjustable head restraints
- Electronic Stability Programme (ESP) with traction control
- Anti-lock Braking System (ABS)

Security

Standard features
- Remote control two-stage central locking with security deadlocks
- Visible Vehicle Identification Number (VIN)
- Key in lockout
- Anti-theft alarm
- Electronic engine deadlock immobiliser
- Lockable glovebox
- Electronic theft protection for audio equipment
- Freewheeling door locks
- Door-to-door illumination
- Keep the headlights and rear lights on for 20 seconds after the vehicle is locked
- Locking wheel bolts
- Folding key

Additional features
- Electronic Stability Programme (ESP) with traction control
- Anti-lock Braking System (ABS)
- Driver's airbag
- Anti-lock Braking System (ABS) and ESP work independently and compare their respective directions of travel with the driver's steering input.
- ESP helps the driver maintain full control of the vehicle during adverse or emergency conditions. ESP technology can operate as a warning tool beforehand or as a full control system during an actual emergency.
- ESP will apply a braking force to the inside rear wheel, slowing it down and increasing the vehicle's yaw angle to help the front wheels change direction as the outside rear tyre has become overloaded and begun to slide. In this instance, ESP will help the driver to complete the necessary lane change successfully by responding in the most effective manner to help the front wheels change direction.

Facade, instruments and controls

Standard features
- Display panel showing time, data, audio information and outside air temperature (with ice warning function)
- Digital clock with automatic RDS time adjustment
- Box cover
- Trip odometer
- Tiltable steering column

Additional features
- Electronic Stability Programme (ESP) with traction control
- Anti-lock Braking System (ABS)
- Driver's airbag
- Anti-lock Braking System (ABS) and ESP work independently and compare their respective directions of travel with the driver's steering input.
- ESP helps the driver maintain full control of the vehicle during adverse or emergency conditions. ESP technology can operate as a warning tool beforehand or as a full control system during an actual emergency.
