WELCOME TO A LIFETIME OF FORWARD THINKING

1903 – Forward thinking has been in our nature from the very start. The 6HP, our first ever car, had two forward gears. And no reverse.

1922 – The Silver Arrow OE 30-98 was capable of speeds of over 100mph. This model was built for shipping magnate Sir Leonard Ropner to race at Brooklands.

1937 – The Vauxhall ‘10’ H-type, the first British car to have integral construction.

1957 – The PA Cresta introduced Americana styling to the UK.

1971 – The formation of Dealer Team Vauxhall (DTV). The track car was the precursor to our enormous success in touring car racing.

1984 – The MkII Astra introduced class-leading aerodynamic styling that still looks good today. The Formula Vauxhall Lotus ran a modified version of the Astra GTE’s 2.0 16v engine.
The world was a very different place in 1903 when Vauxhall made its first car. We steered with tillers, not wheels. Six horsepower was considered pretty nippy. And King Edward’s face was still on the stamps. But for us, one important thing hasn’t changed: we started out with a philosophy of Forward Thinking and, over 110 years later, it still motivates everything we do. Who knows what innovations the next 110 years will bring?
When it comes to comfort, convenience, quality and style the Meriva just gets it all right. FlexDoors® make access so easy. FlexSpace® and FlexRail® systems mean you can completely re-arrange the interior in a couple of clicks. And the high driving position and luxury seating for five make it a relaxing place to be for everyone. On the outside, the Meriva is better looking than ever with a new front grille, bumper and front light design. So you get a car that’s as good to look at for passers by as it is for you to drive.

Inside the Meriva is a great place to be. Up front the driver’s seat holds you comfortably in a high sitting position as you take in a better view of the road ahead and the ergonomically designed facia layout. And in the back there’s ingenuous solutions to sort out those everyday family transport dilemmas.

Every Meriva includes FlexSpace® as standard, a simple way to go from five seats to four, three or two instantly to meet your needs. Then we added FlexFloor®, our two-position, adjustable luggage compartment floor that can be lowered to give you more load height and volume. And then there’s FlexRail®, a versatile, modular, multi-level storage system situated between the front seats with spaces and connectivity for MP3 players and mobile phones.

So whatever life throws your way, you can relax knowing that your Meriva has all the comfort and the flexibility to handle it with ease.
GENIUS OR JUST COMMON SENSE

We made the Meriva a car that’s not just easier to live with – it makes life easier. We added rear-hinged FlexDoors®, that open far wider than normal, to make it easier to get in and out of the back seat and safer for everyone at the roadside. Then we gave the Meriva our Flex-Fix® bike carrier. A fully integrated, optional rear carrier system that can safely carry two bikes but completely folds away into the rear bumper when you don’t need it. Now that makes sense to us.
The infotainment system in the Meriva is there to help. Not get in the way or take over. And it’s so easy to use, whether it’s the standard radio and CD player with aux-in or any of the other options available.

All models feature USB connection for your MP3 player or phone with control via the steering wheel controls. There’s also the availability of Bluetooth® connectivity so you can make calls hands-free.

And there’s even sat nav with the option of IntelliLink technology that lets you make calls and stream audio using Bluetooth® from portable devices via a big 7-inch colour screen.

Whichever you choose, all this tech doesn’t just work, it works the way you want it to.
PERFORMANCE MEANS ECONOMY TOO

It may be perfect for family life but the Meriva is great to drive too. With confident balance and lively, efficient multi-valve petrol, turbo-powered and ultra-efficient diesel engines that are all as good at saving fuel as they are at performing on the road. Add to that lower CO₂ emissions – as low as 99g/km with the new 1.6CDTi 110PS – and savings on Vehicle Excise Duty and you have a range of engines designed to save you money without having to compromise in any way.
PROTECT WHAT’S IMPORTANT

We’ve done everything possible to protect you, your Meriva and other road users. That’s why we offer a series of sophisticated safety features and options.

There’s Adaptive Forward Lighting to make cornering at night safer, front and rear parking distance sensors for those tight parking situations, active-safety front seat head restraints to minimise the risk of whiplash and up to six airbags.

And with the family in mind, all Meriva models feature ISOFIX mountings on the outer rear seats for the safer installation of child seats.

The Meriva doesn’t just feel safer than ever. It is.
Compromise is a thing of the past with our range of engines. They manage to combine comparatively low fuel consumption and emissions with brisk performance so you can have it all. The Meriva engine line-up consists of three 1.4 litre petrol engines and three diesels that are not only designed to be fuel efficient with low CO₂ emissions but surprisingly quiet out on the road too.

#Official Government Test Environmental Data. Official EU-regulated test data is provided for comparison purposes and actual performance will depend on driving style, road conditions and other non-technical factors.

**Correct at time of publication.

**Taxation information for guidance only. Please take professional advice on your own tax position.
All Meriva petrol engines feature Variable Valve Timing technology for high fuel economy and performance. A 100PS engine is matched with two turbocharged versions – a 120PS model and a range topping 140PS variant. Meriva's three Euro 6 compliant 1.6CDTi 'Whisper Diesel' ecoFLEX engines – a 95PS, 110PS and a powerful 136PS variant with 320Nm of torque – are also turbocharged, adding fuel-injection and common rail diesel technology which cuts emissions, reduces noise and lowers fuel consumption. All of the diesel models feature Start/Stop technology as standard. Saving even more fuel by automatically stopping the engine when you come to a standstill and restarting when you want to move off.
CONNECTS WITH YOUR LIFE

You don’t need a degree in technology to get the most out of the Meriva’s infotainment options. Whether you’re syncing a smartphone, finding the quickest way to a new place or just listening to music on an MP3 player, it’s easy.

The choice is yours. Every Meriva comes with a CD player, stereo radio and aux-in or USB connectivity for your MP3 player. But from there you can add as much of the extra technology as you want as options. From Bluetooth® for making calls to streaming audio from smartphones or tablets, to our new Navi 650 sat nav unit or Navi 950 IntelliLink system (right) for voice controlled navigation, phone calls and music tracks. It’s all designed to make your life easier.
Our optional Navi 650 infotainment system is new. Featuring the very latest sat nav with 7-inch colour screen. It gives you fast access to map data and points of interest and keeps you informed on the move. Optional at extra cost* on all models.

1. Or there’s our Navi 950 IntelliLink that lets you make calls and stream audio from your smartphone, tablet or other portable device using Bluetooth®. It also features voice commands for navigation, phone calls and music track choice. Optional at extra cost on SE models.

2. Then there’s Aux-in, USB and Bluetooth®. You can either hook up an MP3 player, smartphone or USB stick to listen to music or downloaded podcasts. Connecting via the USB also means you can control your device via the steering wheel and audio display. Life, Energy and Tech Line models also feature Bluetooth® as standard, optional on all other models except S, which allows you to make calls safely on the move.

Upgrade to digital radio for digital quality sound and a more diverse range of stations that are easier to find by name. Optional at extra cost on all models, except S.

*The Navi 650 system on Tech Line models can be ordered as an extra-cost option or a no-cost option in lieu of front and rear parking distance sensors, electrically heated front seats and electrically heated steering wheel.
SAFER ALL OVER

Like every new Vauxhall, the Meriva comes with **advanced safety features**. From the high-strength steel rigid passenger cell, to active headrests that help prevent whiplash in the event of a rear impact. We’ve got you, and your passengers, covered.

5-star reassurance. The Vauxhall Meriva was awarded the best possible rating by the Euro NCAP body for its safety performance.
1. **Passenger protection.** The Meriva’s passive safety systems include a high-strength steel rigid passenger cell and a full complement of airbags. Just in case. All models feature twin front airbags and side impact airbags with Exclusiv, Tech Line and SE models adding curtain airbags too.

2. **Active-safety front seat head restraints.** Another important safety feature. Designed to minimise one of the most common injuries that can occur even in a low impact rear collision, whiplash.

3. **Front and rear parking distance sensors.** These sensors accurately tell you how close you are to cars in front or behind whilst parking by giving you an audible signal that increases the closer you get to an obstacle. Standard on Tech Line, optional on all other models.

4. **Adaptive Forward Lighting.** This option, available on Exclusiv, Tech Line and SE models as part of the Light Pack, makes cornering at night safer with dynamic curve light that actually angles your headlights into the bend you’re entering. While the static cornering light throws light up to 90° to the left or right so you can see better at low speed corners and junctions.

**Electronic Stability Programme (ESP-plus).** Every Meriva features the latest ESP-plus with Traction Control reducing the tendency to oversteer or understeer almost unnoticeably.

**Anti-lock Braking System.** The advanced Anti-lock Braking System (ABS) combines with other chassis safety features to improve stability and steering behaviour in a range of emergency situations.
We designed the Meriva to be easy on you. From the easy-access FlexDoors®, Flex-Fix® slide-out bicycle carrier system or FlexSpace® versatile seating system. In fact, its all-round ergonomic concept was the first to receive certification from Germany’s prestigious AGR* organisation, in recognition of its capacity to reduce the strain on your back. And that’s a world first.

Ergonomic sports front seats. The perfect choice for long-distance drivers. Optional on Exclusiv and SE models, the front seat adjusts to suit your posture by letting you fine tune the lumbar adjustment and extend the seat cushion, giving your upper body and legs greater support where it’s needed most. The seat has also won the coveted AGR* seal of approval for helping to prevent the back pain and tension suffered by some car occupants.

*AGR (The Campaign for Healthier Backs) is an independent centre of excellence for ergonomics, based in Germany.
1. Easy-access FlexDoors®. The rear hinges on our FlexDoors® mean you can open the doors much wider than normal, making it easier to get in and out of the back seats, or to help other people do the same. Even placing a bag in the back is simpler – and safer – than with ordinary doors.

2. We’ve got your back. Everything about the Meriva is designed to take the strain away from your back by reducing muscle loads and twisting angles which, together, are a main cause of back strain.

*Bicycle size restrictions apply. Please contact your local Vauxhall Retailer for further information.

3. Flex-Fix® integrated bike carrier.* This practical bike carrier slides out of the rear bumper, making it simple to mount up to two bikes on the car, screwdriver-free. When you don’t need it anymore, it slides back into the bumper. Optional at extra cost on Exclusiv and SE models.

4. Versatile FlexSpace® seating. Our FlexSpace® system lets you switch quickly and simply from three rear seats to two, or one, or none at all – without ever removing a seat.
IT ALL SITS TOGETHER COMFORTABLY

There’s no one thing that makes the Meriva so comfortable and easy to live with. It’s a combination of features and technologies large and small. Whether it’s air conditioning or the electric parking brake, for instance, we wanted to make every journey you take a pleasure and for you and your passengers to get there feeling refreshed, no matter how long the journey.
1. **Panoramic glass roof.** Big, bright and beautiful, this sunroof (standard on SE models) stretches right over both rows of seats so everyone can see out. But if you need a little less light, there's the electrically powered sunshade too.

2. **FlexRail® interior storage.** You can keep your belongings secure in place, out of sight and easy to reach with this modular storage system located between the two front seats. Exclusiv models feature the rails complete with a practical sliding tray/cup holder. SE models feature the rails, sliding tray/cup holder and the sliding centre storage system.

3. **Electronic climate control.** We added dual-zone settings for the driver and front passenger so you can set a different temperature for each side of the car. Optional at extra cost on Exclusiv and SE models.

4. **Heated steering wheel.** No more freezing cold steering wheels in winter with this easy-to-grip leather-stitched version. Standard on Tech Line models. Optional as part of the Winter Pack on Exclusiv and SE models.

5. **Electric parking brake.** A push-button handbrake is really easy to use, and it frees up space between the seats for more FlexRail® storage. Standard on all models.

**Air conditioning.** Need help staying cool on hot summer days? No problem with Meriva. Air con is standard across the range.
Standard features include:
• Electronic Stability Programme-plus
• Anti-lock Braking System
• FlexFloor®
• FlexSpace® flexible rear seats
• Twin front airbags
• Front seat side-impact airbags
• Air conditioning

• Driver’s seat height adjuster
• ISOFIX child seat restraint system for outer rear seats (does not include child seat)
• Tyre pressure monitoring system
• Steering column adjustable for reach and rake
• Electric parking brake
• CD/MP3 CD player/stereo radio with USB connection (CD 400)
• Aux-in socket
• Electrically operated front windows
• Electrically adjustable/heated door mirrors
• Remote control central deadlocking
• Graphic information display
• 15-inch steel wheels

INTERIOR TRIMS

Everything inside the Meriva is in the right place. But not just to work well. It's all been put together to look great too.
Interior Trims

Standard on Life/Energy models.

WEGA/ATLANTIS CLOTH TRIM

Standard on S/Exclusiv models.

SKYLINE/ATLANTIS CLOTH TRIM

Standard on Tech Line/SE models.

ASTOR CLOTH/MORROCANA TRIM

Optional on SE models.

ASTOR LEATHER TRIM

Due to the limitations of the printing process, the trims reproduced may vary slightly from the actual trim material. As a result, they should be used as a guide only.
ACCESSORIES

The Meriva is the family car of choice. And we know that every family is different so there’s a long list of accessories to choose from. They’re all there so you can fine-tune your Meriva to fit your way of life. Maybe you have children, like to mountain bike, have dogs or all of those. Whatever you need, make sure it’s a Genuine Vauxhall Accessory so we can guarantee it works as well as the rest of your car. See the whole range at Vauxhall.co.uk/accessories

VXR Styling Pack. Inspired by our racing heritage, the VXR Styling Pack includes body-colour side sills, rear lower skirt and rear roof spoiler. For extra storage space you can add an aerodynamic Thule roof box. It doesn’t get more sporty and practical.

Vehicle illustrated features accessory base carrier, Thule Pacific hard roof box and VXR Styling Pack. In addition, Light Pack, 17-inch alloy wheels and two-coat metallic paint are optional at extra cost.
1.-3. **FlexConnect.** A universal carrier system that attaches to the base of either of the front seat head restraints enabling a variety of comfort and convenience attachments to be installed.

**Folding picnic table.** A folding table with integrated cup holder. Conveniently stows flat when not in use.

**iPad holder.** Securely holds an iPad2 or iPad Mini for easy viewing.

**Clothes hanger.** Helps keep your jacket crease free.

4. **Floor mats.** A range of hard-wearing floor mats is available to protect your interior and are easy to take out and clean.

5. **The DUO ISOFIX baby seat** caters for babies from 9-18kg and can be attached using the ISOFIX child seat restraint fittings, standard on the outer rear seats of all Meriva models.

6. **Semi-rigid cargo liner.** Keep the boot clean and tidy with this semi-rigid moulded plastic liner that you can easily remove for cleaning. The non-skid surface stops the load from sliding around and there’s even a lip to limit damage should liquids spill.

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The maximum roof rack loading should not exceed 100kg. The maximum towing weights are based on the ability of the car with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3 at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, maximum nose weight should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

Smarter driving tips

- **Drive at an appropriate speed**: Staying within the speed limit increases driver safety, reduces CO₂ emissions and saves fuel. At 70mph you could be using up to 9% more fuel than at 60mph and up to 15% more fuel than at 50mph.
- **Drive smoothly at all times**: Anticipate the ebb and flow of the traffic to avoid harsh acceleration and braking.
- **Reduce your revs**: Change gear earlier to help reduce fuel consumption – try 2500rpm with petrol engines and 2000rpm with diesel.
- **Idling is wasting fuel**: If you’re likely to be at a standstill for more than three minutes, switch off the engine to save fuel.
- **Regularly check your tyre pressures**: Under inflated tyres increase CO₂ emissions whilst incorrectly inflated tyres can be unsafe. Always check your handbook for the correct tyre pressure. This will also help to increase the life of your tyres.
- **Remove unnecessary items from the car**: Extra weight increases the engine’s workload, whilst roof racks and bike carriers increase wind resistance. All burn more fuel and increase CO₂ emissions.
Trust Vauxhall

Company Car Driver
3 Day Test Drive
Our free* 3 Day Test Drive programme is open to all Company Car Drivers which allows you to choose any model in the current Vauxhall line-up (excluding Ampera, all VXR models and Commercial Vehicles), with full insurance cover provided; to give you a meaningful length of time to make an informed decision about your next company car. Our tax efficient Tech Line models have been specifically developed for Company Car Drivers, see pages 34–35 for more details.

To book your free* test drive just log on to www.vauxhall3dtd.co.uk or call 0870 240 4848**

Fleet Customer Services
Our dedicated support services for fleet decision makers include factory demonstrators and information on whole life costs, company car taxation and finance.
For further information please call 0870 010 0651.

E10 Fuel
E10 fuel is cleared for use in all petrol-engined Vauxhall vehicles excluding models with the 2.2 litre direct injection petrol engine (code Z22YH) used in Vectra, Signum and Zafira models. Owners of these vehicles should continue to use regular unleaded or premium unleaded petrol.

For more information...
For a brochure on any Vauxhall model (up to a maximum of three per caller) or location of your nearest Vauxhall retailer please call 0345 600 1500.
Alternatively, details can be found on our website at www.vauxhall.co.uk
