The GM Platinum Card is issued by HFC Bank Limited and is available to persons aged 18 years or over and resident in the UK (or 21 and over in the Channel Islands) and is subject to status and conditions. Written quotations are available upon request from The GM Platinum Card, PO Box 3615, Birmingham B3 2RJ. The typical APR quoted is the rate for new customers. *Rebate Points are earned on purchases using The GM Platinum Card. Rebate Point saving is on top of any discount or offer negotiated with the Retailer.

Sureguard protection
Sureguard Protection offers the benefits of a comprehensive and competitive warranty plan from the date of first registration, while Sureguard Mobility also provides peace of mind wherever you may be for the duration of the warranty plan. For further information contact your local Vauxhall dealer or call 0800 140 1900.

In the event of an accident...

Vauxhall welcome the use of approved parts in the repair of Vauxhalls to ensure the continued safety of the vehicle. Where possible, approved parts carry a direct guarantee from the manufacturer of the product.

Vauxhall Insurance
Available for new and used Vauxhalls, a Vauxhall insurance policy offers a unique package designed specifically for Vauxhall drivers. For a free driver’s pack, call 0800 010 304 or visit our website at www.vauxhall-ie.net.

For further information please call 0845 712 3444.

Adaptive Forward Lighting (AFL) is a sophisticated new lighting system that allows drivers to see around corners and see further ahead at motorway speeds. This optional bi-xenon system employs two main functions:

1. Curving Light
   - Controlled by a combination of steering wheel movement and sensors for the vehicle's speed and yaw angle, the Curving Light function allows the headlight beam to move up to 15 degrees left or right of the straight ahead position. This ensures the light is always following the trajectory plotted by the front wheels, rather than simply pointing straight ahead.

2. Cornering Light
   - In order that junctions may be viewed more clearly before the turn has been made, Vauxhall has incorporated the Cornering Light function into the AFL system. An additional reflector within the headlight unit will broadly illuminate the roadside in the chosen direction of travel, depending on the vehicle's speed, steering angle and directional indicators.

Motorway Light
- At speeds above 65mph, AFL raises the dipped headlight beam to extend the range of vision for increased safety at higher speed. The beam automatically returns to its normal position when the car falls below that speed.

Interactive Driving System-plus (IDS-plus) with Continuous Damping Control (CDC) offers an even more sporting driving experience, thanks mainly to the electronic control of the suspension. Pressing the Sport switch activates the CDC function. CDC monitors the roll, pitch and yaw of the car, and changes the rate of damping on each wheel to optimise the handling, effectively deferring the suspension – the same way that the engine management system defers the engine map for sporty driving. Changes and improvements in damping are made through a constant balance of electronic and mechanical inputs depending on the driving conditions.

Sport switch
- When activated, it also affects the steering and accelerator pedal. The drive-by-wire throttle is altered electronically, leading to a sharper engine response and more responsive pedal. The accelerator map is also adjusted, giving the driver a more positive initial turn-in on corner entry.
Poised, muscular and unmistakably purposeful, Vectra and Signum exude confidence and attitude. Dramatic lines, advanced driving dynamics and the highest levels of interior quality all combine to set high standards of comfort and control. Hatchback, estate or saloon, Vectra is rewarding to drive, whatever the conditions. Equally engaging on the road, Signum presents an exciting blend of space, flexibility and style that’s like no other executive hatch.

Vectra and Signum from Vauxhall. Isn’t it time you took control?
"Outstanding refinement; comfortable and enjoyable drive; flexible, clean and frugal engine; classy cabin."

What Car? – December 2005
VECTRA. A NEW DEFINITION OF REFINEMENT

Vectra’s bold and uncompromising lines make a strong statement about the car: significant changes beneath the skin ensure the style is matched with high levels of refinement.

What do we mean by refinement? Smooth, sustainable performance. The ability to conduct a civilised conversation at motorway speeds. The feeling of being in control. Above all, the car is altogether more rewarding to drive, with improved roadholding allied to the highest levels of comfort.

Underlining its reputation for refinement, practicality and roominess, Vectra was named Best Estate Car in the What Car? Car of the Year Awards 2006 and 2007.

“The Vectra can be hustled along a twisty road with total confidence and, yet, even put a smile on your face.” What Car? – November 2005
SIGNUM. A REDEFINITION OF EXECUTIVE HATCH

With a longer wheelbase that frees up more interior space than even the roomy Vectra hatchback, Signum totally redefines the concept of the executive hatch. More refined and altogether more comfortable, the latest models combine premium saloon quality with the versatility of an estate and the flexibility of an MPV.

Inside, Signum’s innovative FlexSpace® concept sets a whole new standard in rear seat passenger comfort. While a state-of-the-art satellite navigation system – fitted as standard on every Signum model – keeps the driver feeling every bit as relaxed as those sitting behind.

“...motorway journeys were impressively quiet, with road and wind noise kept to a minimum. The long sixth gear also ensures that the Signum feels relaxed at 70mph.” Auto Express – 19 October 2005
ENJOY THE FEELING OF BEING IN CONTROL

“Now beats the rest for refinement, ride comfort, handling and interior quality...” – What Car? – November 2005
"Settle into the tremendous bucket seats (long a Vauxhall strength), start the 2.2-litre petrol engine we chose first and drive away – and immediately things feel good." - MSN Cars UK
DISCOVER THE SECRET OF EFFORTLESS COMPOSURE

“The Vectra has always been a refined car, but now there’s an added pizzazz to its repertoire.”

Fleet News – 1 September 2005
Multi-function control pad. Located on the driver’s door armrest, this brings together the switches for the electric windows, central door locking and door mirrors in one convenient location.

Adjustable steering column. A steering wheel adjustable for reach and rake, backed by a high level of steering adjustment on all models, makes it easy for drivers of all shapes and sizes to achieve the ideal driving position.

Satellite navigation. Uses the international network of GPS (Global Positioning System) satellites linked to a CD-ROM-based mapping system to guide you to wherever you want to go, anywhere in mainland Britain. A Traffic Message Channel (TMC) function can supply an alternative route when traffic conditions demand, using information received via a dedicated radio frequency. You can even plan your route to avoid motorways! The technology is standard on Vectra Elite and right across the Signum line-up. A range of Vectra Nav models – Life, Exclusiv, Design and SRi – is now available featuring satellite navigation as standard at an attractive price.

Cruise control. The easy-to-use, manual-up and down cruise control, is standard on all Vectra and Signum models. It allows you to maintain a steady speed without keeping your foot on the throttle. So it’s more comfortable on long journeys and easier to keep to speed limits too.

Driver features

Multi-adjustable seats. All models feature eight-way adjustment of the driver’s seat (reach, rake, height and tilt) plus lumbar adjustment. Eight-way adjustment extends to the front passenger’s seat on Design and Elite models.

Multi-function display. The centrally positioned, five-inch monochromatic screen displays the time, outside temperature, date and audio information plus an ice warning. The same display is used for the check control warning functions and trip computer.

Foldable door mirrors. Every Vectra and Signum model comes with hard, electrically adjustable door mirrors, which are also activated by an automatic timed cut-off for fast demisting on wintry mornings. They’re foldable too, helping avoid bumps and scrapes in tight parking situations.

Cruise control. The easy-to-use, manual-up and down cruise control, is standard on all Vectra and Signum models. It allows you to maintain a steady speed without keeping your foot on the throttle. So it’s more comfortable on long journeys and easier to keep to speed limits too.

Front and rear parking distance sensors. This optional system helps safeguard your car. Sensors provide an audible warning when an object is sensed in front of or behind the vehicle.

Comfort features

Electronic Climate Control (ECC).
Electronic Climate Control (ECC) lets you choose a different temperature from your fellow front passenger – and can even compensate for the effects of sunlight falling on one side of the car.

Air conditioning and automatic air conditioning. Air conditioning means plenty of chilled air on hot days and quicker demisting on damp days – plus a safer, fresher travelling environment all year round. Vectra Design models fitted with the latest automatic air conditioning system offer many of the benefits of ECC – including maintenance of a constant temperature and a built-in sunlight sensor – but with air distribution (windscreen, footwell etc) controlled manually and no central display.

Adjustable front seat centre armrest. Another standard feature that combines comfort and practicality for front seat passengers, the adjustable armrest has two-stage storage – a shallow tray – ideal for your mobile phone and loose change – plus a deeper compartment below.

Sensing features.
Headlights that switch on automatically when it gets dark. Wipers that swing into action the moment they sense rain on the windscreen. A rear-view mirror that ‘dips’ when it detects glare from the car behind. All of these features are standard on Design and Elite models.

Electronic operated slide/tilt glass sunroof. A lighter cabin, extra fresh air when you need it – plus a preset function that ties in with your preferred setting.

Electronically operated side/flip glass sun mirrors. A lighter cabin, extra fresh air when you need it – plus a preset function that ties in with your preferred setting.

DAB/MP3/Bluetooth® phone technology. Both Vectra and Signum feature high-tech audio systems that put you in full control of the listening environment with features including DAB digital radio, CD changer and/or advanced MP3 format stereo radio/CD player. The CD 70 audio unit also features an auxiliary-in socket so you can play tracks directly from your personal MP3 player. Integrated mobile phone* technology is also available featuring voice activation and Bluetooth® wireless connectivity. You’ll find all the details on page 65 of the Equipment section.

Electronic Climate Control (ECC). Electronic Climate Control (ECC) lets you choose a different temperature from your fellow front passenger – and can even compensate for the effects of sunlight falling on one side of the car.

Avoiding the high levels of equipment

Vectra. Explore the benefits of flexible space

… headroom is generous, and there’s no arguing with the 500-litre boot.”

Auto Express – 7 October 2005

Power tailgate. The estate tailgate can be opened and closed automatically using either the remote control key fob or a button located on the inner tailgate and may be stopped in any position. An obstruction-sensing safety mechanism helps prevent accidents when closing the tailgate.

Load-restraining net. Handily concealed in its own spring-loaded cartridge when not in use, the estate’s vertical load-restraining net can be fixed either behind the rear seat or directly behind the front seats when the rear seat is folded down. This helps prevent luggage from being thrown forward into the passenger area during transit.

Underfloor storage. Vectra Estate utilises every spare inch of space with an underfloor storage area that’s perfect for carrying items out of sight and away from the luggage area.

FlexOrganiser® Pack. Consisting of a 3D storage net, side net pocket and four side rail hooks the FlexOrganiser® Pack creates easy, secure and clearly defined storage compartments within the Vectra Estate luggage area, using rails built into the side panels and a flexible arrangement of nets and dividers.

Power tailgate. The estate tailgate can be opened and closed automatically using either the remote control key fob or a button located on the inner tailgate and may be stopped in any position. An obstruction-sensing safety mechanism helps prevent accidents when closing the tailgate.

FlexOrganiser® Pack. Consisting of a 3D storage net, side net pocket and four side rail hooks the FlexOrganiser® Pack creates easy, secure and clearly defined storage compartments within the Vectra Estate luggage area, using rails built into the side panels and a flexible arrangement of nets and dividers.

Underfloor storage. Vectra Estate utilises every spare inch of space with an underfloor storage area that’s perfect for carrying items out of sight and away from the luggage area.

Integrated roof rail. Full-length slimline roof rails accommodate the Vectra estate model’s extended roofline as well as providing a practical mounting point for roof carrier accessories such as bicycle carriers and roof boxes.

Generous luggage area. Hatchback and saloon models offer from 500 to 1050 litres of luggage space; the estate is even more impressive with a class-leading 1850 litres. With the rear seat folded the estate (illustrated above) also provides a little over two metres of load floor length – a massive figure by any standards. Full details of the Vectra’s loadspace dimensions and luggage capacities can be found on page 71.

Split-folding rear seat back. All Vectra models feature a 60:40 split-folding rear seat back with folding centre armrest and load-through facility ideal for longer items of luggage. Both parts of the seat can be folded down in one movement without removing the head restraints.

Underfloor storage. Vectra Estate utilises every spare inch of space with an underfloor storage area that’s perfect for carrying items out of sight and away from the luggage area.

Integrated roof rail. Full-length slimline roof rails accommodate the Vectra estate model’s extended roofline as well as providing a practical mounting point for roof carrier accessories such as bicycle carriers and roof boxes.

Load-restraining net. Handily concealed in its own spring-loaded cartridge when not in use, the estate’s vertical load-restraining net can be fixed either behind the rear seat or directly behind the front seats when the rear seat is folded down. This helps prevent luggage from being thrown forward into the passenger area during transit.

Split-folding rear seat back. All Vectra models feature a 60:40 split-folding rear seat back with folding centre armrest and load-through facility ideal for longer items of luggage. Both parts of the seat can be folded down in one movement without removing the head restraints.
Signum. Adjust your space to suit your mood

“...the car is at its best in the rear. Two sumptuous individual chairs provide a limousine feel with exceptional legroom, and are easily folded to create a huge load area.” Auto Express – 5 October 2005

Extended wheelbase. Signum’s extended wheelbase – relative to Vectra hatchback and saloon models – helps create a more roomy passenger environment, particularly in the rear. Allied to the car’s finely adjustable – and reclinable – FlexSpace® seats, it gives the car a quality that is unique in the marketplace. In addition, full-length slimline roof rails on Exclusiv and Elite models accentuate the car’s extended roofline as well as providing a practical mounting point for roof carrier accessories such as bicycle carriers and roof boxes. The roof rails are also available as an option on Elegance and Design models.

Individual rear seats. Slide the two fully contoured individual rear seats back and forth, independently of one another, to achieve the perfect mix of legroom and storage space. There’s also a fold-down rear centre armrest.

Extended wheelbase. Signum’s extended wheelbase – relative to Vectra hatchback and saloon models – helps create a more roomy passenger environment, particularly in the rear. In addition, full-length slimline roof rails on Exclusiv and Elite models accentuate the car’s extended roofline as well as providing a practical mounting point for roof carrier accessories such as bicycle carriers and roof boxes. The roof rails are also available as an option on Elegance and Design models.

FlexSpace® seating. With FlexSpace®, you can adjust the rear seat backs to create more room in the luggage compartment, or recline them individually, providing front-seat style comfort. The wide centre armrest provides generous elbow room for two; there’s even a built-in console with Twin drinks holders! Full details of the Signum’s loadspace dimensions and luggage capacities can be found on page 71.

Individual rear seats. Slide the two fully contoured individual rear seats back and forth, independently of one another, to achieve the perfect mix of legroom and storage space. There’s also a fold-down rear centre armrest.

40/20/40 split rear seat. Adding to Signum’s versatility, the rear seat is split 40/20/40 to accommodate the desired blend of passengers and luggage. Further explanation can be found in the Technical data section on page 74.

Generous load area. Fold the rear seat back forward – in a simple one-handed movement – and you create a massive flat 1410 litre load area.

Thanks to its innate roominess and the innovative FlexSpace® rear seating concept, Signum can be transformed in seconds from a plush executive express featuring two fully contoured rear seats with an additional centre rear seat – ideal for that occasional fifth passenger – into a capacious and refreshingly versatile travelling environment, perfectly equipped to accommodate the differing demands of work, family and friends.
Experience genuine performance with control

“Vauxhall has made a fantastic job of updating the Vectra. It has managed to retain the superlative refinement and cosseting ride… yet sharpen the drive to the extent that it’s now one of the most rewarding cars in this class. The 2.2i engine is a joy.” What Car? – November 2005

Chassis tuned to UK roads. The UK’s unique road surfaces present a special challenge to chassis engineers. That’s why so much care has been taken tuning the car’s chassis to our less-than-perfect surfaces. Specific improvements include revised front anti-roll bars and bushes, revised rear suspension bushes and attendant revisions to springs and dampers. There is also a stiffer ‘handling’ bush in the front suspension to enhance the responsiveness of the steering and specific power assistance characteristics for individual models. The process has been so successful that it has become a fundamental part of all future Vauxhall development programmes.

Active Select. The optional five- and six-speed automatic transmissions feature an Active Select facility, which enables drivers to switch from automatic to manual sequential mode using a second transmission gate.

Interactive Driving System-Plus (IDS-Plus). IDS-plus delivers the ultimate in driver control. Continuous Damping Control (CDC) senses changes in the vehicle dynamics and automatically adjusts the damper rates – in real time – producing greater comfort, more confident cornering behaviour and sharper handling, with reduced body roll. The Sport switch function allows instant switching to a sharper throttle and more responsive steering – and back again – to suit your mood. Further explanation can be found in the Technical data section on page 79.

Active Select. The optional five- and six-speed automatic transmissions feature an Active Select facility, which enables drivers to switch from automatic to manual sequential mode using a second transmission gate.

Advanced diesel line-up. Both the 120PS 1.9CDti and 150PS 1.9CDti 16v common rail diesel engines offer strong performance allied to smooth power delivery and rigorous emissions control; the 16-valve TDPIs version is particularly powerful for an engine in this class. And the 3.0CDti V6 24v engine boosts power even further Making BWPS available to Vectra and Signum drivers

Active Select. The optional five- and six-speed automatic transmissions feature an Active Select facility, which enables drivers to switch from automatic to manual sequential mode using a second transmission gate.
Remote control alarm system. Ultrasonic security alarm system features forced entry detection, along with tilt, movement and rear glass breakage sensors, plus a power system complete with its own power supply.

Additional security. Every Vectra and Signum models is packed with security features, including central deadlocking and an engine immobiliser. Hatchback and estate models also feature a luggage compartment cover to hide valuables from prying eyes.

Remote control alarm system. Ultrasonic security alarm system features forced entry detection, along with tilt, movement and rear glass breakage sensors, plus a power system complete with its own power supply.

Active-safety front seat head restraints. Actuated by the weight of the occupants’s body being forced back into the seat, the restraints move forwards and upright in the event of a rear impact, helping to reduce whiplash injuries.

Adaptive Forward Lighting (AFL). This advanced bi-xenon lighting system ensures the headlight beams are always aimed in the direction you’re about to go – and not necessarily the direction the front of the car is already pointing in! As Autocar magazine put it in a test report: ‘AFL is easy to get used to and hugely improves visibility for night driving’. Further explanation can be found in the Technical data section on page 79.

Six airbags. All models come with driver’s and front passenger’s airbags, along with front seat side-impact and full-size curtain airbags.

SEATX child seat restraint system. This rigid anchoring mechanism fitted to the outer rear seats virtually eliminates the dangers that can result from improper installation, particularly when used with a Vauxhall accessory SEATX child seat.

Anti-lock Braking System (ABS). The system has been shown to help reduce stopping distances, particularly on slippery surfaces. By preventing the wheels from locking up, it also allows you to retain control of the steering during emergency braking.

ISOFIX child seat restraint system. This rigid anchoring mechanism fitted to the outer rear seats virtually eliminates the dangers that can result from improper installation, particularly when used with a Vauxhall accessory ISOFIX child seat.

Electronic Brakeforce Distribution (EBD). Works in conjunction with the ABS system to distribute the applied braking force between the wheels most able to use it. This allows the car to brake in a stable manner whatever load you’re carrying.

Cornering Brake Control (CBC). Makes the car easier to control in extreme situations, especially when braking sharply on a bend. Particularly effective when carrying our emergency manoeuvres. Further explanation can be found in the Technical data section on page 74.

Six airbags. All models come with driver’s and front passenger’s airbags, along with front seat side-impact and full-size curtain airbags.

Electronic Stability Programme (ESP-Plus). Senses when the vehicle is about to slide on a bend and applies braking to up to three wheels, correcting the slide and helping you regain control more rapidly. The system also incorporates traction control. Further explanation can be found in the Technical data section on page 79.

Emergency Brake Assist (EBA). Detects the urgency with which the brake pedal is pressed and rapidly increases the pressure to the maximum the system can provide, shortening stopping distances. Further explanation can be found in the Technical data section on page 74.

Electronic Stability Programme (ESP-Plus). Senses when the vehicle is about to slide on a bend and applies braking to up to three wheels, correcting the slide and helping you regain control more rapidly. The system also incorporates traction control. Further explanation can be found in the Technical data section on page 79.

Additional security. Every Vectra and Signum models is packed with security features, including central deadlocking and an engine immobiliser. Hatchback and estate models also feature a luggage compartment cover to hide valuables from prying eyes.

Feel safe and protected at all times  "The car is now a more complete package.” The Sun – September 2005
VECTRA AND SIGNUM

Vectra and Signum. Two great model ranges tied to a single concept: to give drivers the very best in style, driving refinement and choice. With a mix of hatchback, estate, saloon and executive hatch body styles – backed by a wide selection of engines and trim levels (five for Vectra, four for Signum) – it’s easy to identify the Vectra or Signum model that is best suited to your needs.

The following pages provide a handy overview of each particular model, broken down by body style, engine availability and equipment highlights; the Equipment and Technical Data section provides the fuller picture.
Standard features include:

- Air conditioning
- Driver’s and front passenger's airbags
- Front seat side-impact airbags
- Full-size curtain airbags
- Anti-lock braking system
- Eight-way adjustable driver’s seat
- Active-safety front seat head restraints
- Steering column adjustable for reach and rake
- Remote control security alarm
- Remote control central deadlocking
- CD 30 satellite radio/CD player
- Steering wheel mounted audio controls
- Cruise control
- Electrically operated front windows
- Electrically adjustable/heated door mirrors
- Centre-console interior door handles
- Foldable door mirrors
- Interior pollen filter
- Adjustable front centre armrest with storage facility
- Two-tone horn

Optional Exclusive Plus Pack includes:

- 17-inch alloy wheels with locking wheel bolts and 215/50 R 17 ultra-low profile tyres
- CD 40 satellite radio with DAB/integral six-disc CD autochanger with MP3 format/graphic information display
- Front fog lights

Life Nav models feature:

- CD 30 satellite navigation system with graphic display

Exclusiv Nav models feature:

- CD 70 satellite navigation system with graphic display
Standard features include:

• Six airbags
• Eight-way adjustable driver’s seat
• Steering column adjustable for reach and rake
• Remote control central deadlocking
• Body-colour sports front air dam
• Electrically adjustable/heated door mirrors

Additional features over and above Exclusiv models:

• Lowered and uprated sports suspension
• Trip computer
• Sports instruments
• Three-spoke leather-covered sports steering wheel
• Sports front seats
• Front fog lights
• Leather-covered gear knob (manual)
• 17-inch alloy wheels with 215/50 R 17 ultra-low profile tyres
• Visible stainless steel exhaust tailpipe (hatchback only)
• Visible dual branch tailpipes on 2.2i 16v Direct, 2.0i 16v Turbo and 3.0CDTi V6 24v (hatchback only)
• Dark-tinted Solar Protect® glass – excludes windscreen and front door windows (estate only)
• Dark-style headlights and tail lights

Options and accessories

Vauxhall options and accessories are all about choice – selecting your new car, then personalising it to suit yourself. There's a choice of factory-fitted options and a huge range of retailer-fit accessories. You can also choose styling products from the VXR range as well as auto design specialist Irmscher International. You'll find further information on the following pages or just ask your Vauxhall retailer for more details.

Styling

Inspired by our hugely successful racing team, VXR styling products reflect our experience, knowledge and passion for style and performance. Available onVectra on factory-fit option packs or accessories fitted by your Vauxhall retailer, the VXR range adds flair, personality and excitement to your car.

• Front lower spoiler
• Rear lower skirt (Hatchback/Estate)
• Rear lip spoiler (Hatchback)
• Rear roof spoiler (Estate)
• Side sills

*Factory-fit option pack not available on saloon models. However, individual VXR styling parts are available as retailer-fit accessories. Model illustrated also features optional 19-inch alloy wheels.

Irmscher alloy wheels.

They’re the perfect way to personalise your Vectra and Signum. With a huge range to choose from (style illustrated is Stila), and sizes from 16 to 20 inches, you’re sure to find one to suit your style and budget. And don’t forget to ask about our accessory wheel locking kits too.

Developed in conjunction with auto design specialists Irmscher International, Vectra and Signum styling accessories perfectly complement the vehicle’s lines, as well as being manufactured to the same exacting standards as the cars themselves. For availability details of these features, please refer to the Vauxhall Car and Accessory Price Guide.

Model illustrated features Irmscher front lower spoiler, cross hatch grille with aluminium upper and laser-etched ‘Irmscher’ logo, side sills, chrome-effect door mirror covers, rear roof spoiler and 19-inch GT Star alloy wheels.

*Factory-fit option pack not available on saloon models. However, individual VXR styling parts are available as retailer-fit accessories. Model illustrated also features optional 19-inch alloy wheels.

Parking distance sensors, Adaptive Forward Lighting, an electric sunroof – there’s a huge range to choose from. Simply make your choice when you order your new car and it’ll be fitted at the factory for you. You’ll find further information on availability in the Equipment section. Or you can ask your Vauxhall retailer.

### Options and option packs

#### Towing Pack (Estate only)
- Retractable tow bar
- Self-levelling rear suspension (not with sports suspension)
- Trailer stability programme
- Electronic Stability Programme (ESP) incorporating traction control

#### FlexOrganiser® Pack (Estate only)
- 3D storage net
- Side net pocket
- Four side rail hooks

#### Individual options include:
- Electrically operated slide/tilt glass sunroof
- Interactive Driving System-plus with Continuous Damping Control
- Parking distance sensors

#### Mobile phone system with Bluetooth®
With the optional mobile phone system, your phone interfaces with the audio unit for full operation via the steering wheel controls and facia display. Bluetooth® wireless connectivity with voice activation is included. See page 63 for more detailed information.

*Please refer to the Vauxhall Car and Battery Price Guide for a list of phone-specific cradles.

#### Slide/tilt glass sunroof
The electrically operated slide/tilt glass sunroof features a preset dial function enabling you to choose your preferred setting.

#### FindOrganiser® Pack (Estate only)
- 3D storage net
- Side net pocket
- Four side rail hooks

#### Adaptive Forward Lighting (AFL)
The optional lighting system swivels the headlight beams up to 15 degrees for improved vision as you turn a corner. Above 65mph, it raises the dipped headlight beam slightly to increase safety – returning to normal beam automatically as speed is reduced. See page 75 for more detailed information.

*Please refer to the Vauxhall Car and Accessory Price Guide for a list of phone-specific cradles.

Available individually or in special packs at great prices, Vectra and Signum options can make life better in so many ways. Parking distance sensors, Adaptive Forward Lighting, an electric sunroof – there’s a huge range to choose from. Simply make your choice when you order your new car and it’ll be fitted at the factory for you. You’ll find further information on availability in the Equipment section. Or you can ask your Vauxhall retailer.
Vauxhall accessories are the right choice for your Vectra and Signum. Whatever you're into, there's certainly to be a Vauxhall accessory with your name on it; all fitted by trained Vauxhall professionals. We've only featured a small selection of what's available here. The Vauxhall Car Accessory Brochure and Car and Accessory Price Guide give further details. Or check out our website at www.vauxhall-accessories.com

Protection Pack.
• Velour mats
• Mudflaps

Travel Pack.
• First aid kit
• Warning triangle
• Spare bulb kit (not for AFL headlights)
• Hi-visibility vest

Protection Plus Pack.
• Paint and trim protection
• Velour mats
• Mudflaps

Map net.
Ideal for securing all those odds and ends that might clutter up your cabin area, and a perfect place to store your map.

Base carrier and roof box.
The Vauxhall roof rack system begins with a base carrier, comprising two T-track roof bars which support a wide range of attachments. These include a choice of high capacity roof boxes, each one lockable and easy to fit.

Tow bar and 12N electrics.
To win in confidence with the detachable tow bar available for Vectra and Signum. It won't get in the way when you don't need it. But it's easy to mount when you do. And naturally, it is tested to comply with top European standards. Accessory towing mirrors are also available.

Side loading bicycle carrier.
The perfect solution for easy loading and unloading, this innovative carrier has a swinging support bar which ensures the bike clears the side and roof of the car. A gas-assisted strut helps take the weight of the bike. Two carriers can be fitted to one base carrier.

Dog guard with space divider grid* (estate only).
The heavy-duty steel dog guard helps keep your pet secure and protect passengers in the event of sudden braking. The space divider grid (sold separately) allows luggage to be stored on one side, and the dog to travel on the other.

*The space divider grid can only be used in conjunction with the dog guard. 

N.B. Dog guard requires fitting kit (retailer-fit only) if vehicle is not equipped with the optional factory-fit vertical load restraining net.

Tow bar and 12N electrics. Tow in confidence with the detachable tow bar available for Vectra and Signum. It won't get in the way when you don’t need it. But it’s easy to mount when you do. And naturally, it is tested to comply with top European standards. Accessory towing mirrors are also available.

Vauxhall accessory packs bring together a selection of essential accessories at great prices, helping you to protect your car and equipping you for roadside emergencies.
This is extra-sensory stimulation. Cars with soul and power to make you feel alive, electrified and inspired. A range of driver-focused, performance machines for the road, born on the track.
For more information on the Vectra VXR please ask your Vauxhall retailer for a copy of the latest VXR range brochure.

Vectra VXR.

Unique VXR body styling... powerful 280PS, 2.8i V6 24v turbo engine... 0-60 in 6.1 seconds (hatchback)... dual-processor Continuous Damping Control. Few other mid-range five-seat hatchbacks, or estates for that matter, have such stunning performance credentials. But then Vectra VXR has never been about following convention. Put simply, it’s the best Vectra yet!

VXR takes the experience, knowledge and passion gained from racing and crystallises it into a range of performance road cars.

- Hatchback and estate bodystyles
- Lowered and uprated VXR sports suspension
- Twin-chrome triangular side exhaust tailpipes
- Recaro sports front seats
- 18-inch alloy wheels
- 19-inch alloy wheels with anthracite inner, optional at extra cost (right)

"THE VXR REALLY DELIVERS.
IT’S AN EXPLOITABLE, COMPOSED AND EXCITING CAR TO HANDLE."

EVO – APRIL 2006

Vectra VXR.
Vectra and Signum are available in a range of stylish exterior paint finishes and interior trims, all chosen to complement each other and reflect the individual status of each model. Speak to your Vauxhall retailer about the choices on offer.

Due to the limitations of the printing process, the colours reproduced may vary slightly from the actual paint colour or trim material. As a result, they should be used as a guide only. Your Vauxhall retailer has a comprehensive display of all our paint samples and trim variations.

### Additional features
Exterior and convenience features

**Standard features**
- Electrically operated front windows with safety autodown and one-touch facility.
- Two electrically adjustable/folded rear mirrors (wide-angle on driver’s side) with automatic timed cut-off.
- Heated rear window with automatic timed cut-off.
- Instrument panel window switch (backlit/illuminated).
- Twin-jet sunscreens.
- Two gas-assisted tailgate struts (backlit/illuminated).
- Foldable rear view mirrors (excludes windscreen and front door windows).
- Power tailgate (estate).
- Retractable tow bar (estate).
- Dark-tinted Solar Protect® glass.
- Silver-effect roof rails (estate/Signum).
- Black roof rails (estate).
- Two-coat metallic or pearlescent paint.
- Front and rear parking distance sensors.
- and interior blind with multi-position pre-set facility.

- 19-inch ﬁ ve-spoke alloy wheels with locking bolts and 235/35 R 19 ultra-low proﬁle tyres

---

- Only available in part of an option pack.
- See page 62 for details.
- See Vauxhall Car and Accessory Price Guide for details.

---

**Notes:**
- Automatic self-levelling rear suspension is not available in conjunction with 18/19-inch alloy wheels, IDS-plus or sports suspension.
- Fitted to estate models only. Hatch and saloon models are ﬁ tted with orange indicators and side repeaters.
- Also ﬁ tted to 2.2i 16v Direct models.
- Also available as part of an option pack. See page 62.
- Includes sports suspension.
- Not available on 3.0CDTi V6 24v models. The optional 19-inch alloy wheels will affect the fuel consumption and CO2 emissions (see pages 67/68). This may have an effect on the VED band and/or beneﬁ t in kind taxation.

**VXR Styling Pack One (hatch/estate)**

- Body colour front spoiler, side sills, rear spoiler (standard on SRi hatch) and rear lower skirt
- Visible stainless steel exhaust tailpipe (hatch)

**Towing Pack (estate)**

- Electronic Stability Programme-plus incorporating traction control
- Trailer stability programme
- Automatic height levelling rear suspension
- Retractable tow bar

**FlexOrganiser® Pack (estate)**

- 3D storage net
- Side net pocket
- Four side rail hooks

---

1 Standard equipment
2 Excluding design pack
3 A surround, defogger, reverse sensor
4 Please note: a separate electrical adaptor (13-pin to 7-pin) is required – available as an accessory at extra cost. This adaptor does not allow for supplementary trailer power requirements.
5 Lucifer self-leveling suspension packs not available in conjunction with IDS-plus or sports suspension.
6 Automatic self-leveling rear suspension is not available in conjunction with 18/19-inch alloy wheels, IDS-plus or sports suspension.
7 Automatic self-leveling rear suspension is not available in conjunction with 18/19-inch alloy wheels, IDS-plus or sports suspension.
8 Electronic Stability Programme-plus (ESP-plus) is standard on 2.8i V6 24v Turbo/3.0CDi V6 24v models.
9 Please note: extra-cost option packs are only available on Vectra models.
10 Please note: extra-cost option packs are only available on Vectra models.

---

12 Includes sports suspension.
13 Not available on 3.0CDi V6 24v models. The optional 19-inch alloy wheels will affect the fuel consumption and CO2 emissions (see pages 67/68). This may have an effect on the VED band and/or benefit in kind taxation.
14 (See Vauxhall Car and Accessory Price Guide for details).
15 ESP-plus is standard on 2.8i V6 24v Turbo/3.0CDi V6 24v models.
16 Please note: extra-cost option packs are only available on Vectra models.

**Technical data**

- 2.0i 16v Turbo
- 2.2i 16v Direct

**Suspension**

- Rear: 5-speed manual and springs and dampers with lower ride height.

**Brakes**

- Front: Discs (15/17/18in diameter)
- Rear: Discs (15/17/18in diameter)

**Expansion and braking. These figures take account of the vehicle’s kerbweight, ascertained in accordance with the above regulation.**

**Important:** The results given relate to the particular car tested. Cost on 1.9CDTi 16v (150PS)/3.0CDTi V6 24v (177PS). Fluid drive with torque controlled with adaptive driving function and winter mode.

**Adaptive driving function and winter mode.**

- Six-speed automatic transmission with adaptive driving function and winter mode. Fluid drive with torque converter (lock-up clutch) reduces control and possible overheating in automatic modes.

**Suspension and Braking**

- Fluid drive with torque converter (lock-up clutch) reduces control and possible overheating in automatic modes.

**5.3secs**

- 6-Speed manual and automatic transmissions widely available

- Driver and passenger seat adjustment electrically controlled with gas-pressure dampers and coil springs. Anti-roll bar.

**Six-speed manual and automatic transmissions**

- Fluid drive with torque converter (lock-up clutch) reduces control and possible overheating in automatic modes.

**Optional transmissions**

- Six-speed automatic transmission with Active Select function: available as a factory fitment on 2.2i 16v Direct models. Electronically controlled with adaptive driving function and winter mode. Fluid drive with torque converter (lock-up clutch) reduces control and possible overheating in automatic modes.

**Rear disc brakes**

- 2.0i 16v Turbo
- Rear ventilated discs: 278mm diameter
- Rear discs: 278mm diameter

**5-speed automatic transmission**

- Active Select function: available as part of Towing Pack.

**Six years’ body panel anti-perforation warranty**

- First registration

**Warranties**

- Vauxhall Assistance and Vauxhall Motors Ltd. Terms and conditions apply – please see your Vauxhall retailer for details.

**Vauxhall Assistance**

- A one-year unlimited mileage manufacturer’s warranty
- Two years’ unlimited mileage manufacturer’s warranty

### Technical data

**Gross vehicle weight** is the total permissible weight of the laden vehicle, including the weight of the driver, passengers and their luggage, trailers and any optional equipment or accessories. The **kerbweight** is the total permissible weight of the laden vehicle without the driver, passengers and their luggage, trailers and any optional equipment or accessories.

The **maximum noseweight** of the laden vehicle is the total permissible weight of the laden vehicle including passengers and their luggage. To determine the total carrying capacity of the laden vehicle, subtract the kerbweight from the gross vehicle weight. Note that the maximum noseweight of the laden vehicle should not exceed 78kg for Vectra hatchback and saloon and Signum models, or 85kg for Vectra estate models. Always fit Vauxhall towing attachments as required for your vehicle.
Technical data

Anti-lock Braking System (ABS) with Cornering Brake Control (CBC)
D1. Cornering brake control makes the car easier to control in extreme situations, particularly when braking sharply on a bend. It is particularly effective when carrying out emergency procedures, such as avoiding a child’s ball that’s rolled out from the kerb. The system works by sensing the different rotational speeds of the individual road wheels and co-ordinating the level of braking pressure applied to each wheel. CBC is an integral part of Vectra and Signum’s comprehensive ABS.

Electronic Stability Programme-plus (ESP-plus)
D3. ESP-plus provides enhanced yaw compensation during understeer or oversteer. The system works by monitoring the front and rear of the car, comparing their respective directions of travel going in to the bend with the input received through the steering wheel. If the vehicle starts to slide, it applies corrective braking to the appropriate wheel, or wheels, compensating for the slide and helping you regain control more rapidly.

Emergency Brake Assist (EBA)
D2. Emergency brake assist detects the urgency with which the brake pedal is pressed and rapidly increases the pressure to the maximum the system can provide, shortening stopping distances. It also enhances pedal feel.

Signum FlexSpace® rear seating
D4. Signum’s rear centre seat is ideal for that occasional fifth passenger. Alternatively you can swivel the padded section to reveal a useful storage console. There’s even a pair of built-in drinks holders. Naturally, the seat comes with its own lap and diagonal inertia-reel seatbelt, cleverly concealed in the headlining.

The two individual rear seats are fully contoured, front seat-style, for optimum comfort and can be slid back and forth by up to 130mm to achieve the desired mix of legroom/luggage space. In addition, a recline facility for the two individual rear seats lets your passengers achieve their most comfortable travelling position.

The rear seat itself is split 40/20/40 to provide ample space for passengers and/or luggage. The seat cushions of the two individual outer rear seats slide forward as the backs fold in a simple, one-handed movement, creating a large flat load floor.
Adaptive Forward Lighting (AFL)

Adaptive Forward Lighting (AFL) is a sophisticated new lighting system that allows drivers to see around corners and see further ahead at motorway speeds. This optional bi-xenon system employs two main functions:

Curving Light
- Controlled by a combination of steering wheel movement and sensors for the vehicle’s speed and yaw angle, the Curving Light function allows the headlight beam to move up to 15 degrees left or right of the straight ahead position. This ensures the light is always following the trajectory plotted by the front wheels, rather than simply pointing straight ahead.

Cornering Light
- In order that junctions may be viewed more clearly before the turn has been made, Vauxhall has incorporated the Cornering Light function into the AFL system. An additional reflector, within the headlight unit, will broadly illuminate the roadside in the chosen direction of travel, depending on the vehicle’s speed, steering angle and directional indicators. Motorway Light
- At speeds above 65mph, AFL raises the dipped headlight beam to extend the range of vision for increased safety at higher speed. The beam automatically returns to its normal position when the car falls below that speed.

Interactive Driving System-plus (IDS-plus) with Continuous Damping Control (CDC)

The Interactive Driving System (IDS) offers the driver a more sporting driving experience, thanks mainly to the electronic control of the suspension. Pressing the Sport switch activates the CDC function. CDC monitors the roll, pitch and yaw of the car and adjusts the rate of damping on each wheel to optimise the handling. This means the vehicle will exhibit a more responsive handling in changing directions and more immediate steering response when cornering. CDC is a major breakthrough in the segment.

Sport switch
- The functions of the Sport switch aren’t limited to suspension control. When activated, it also affects the steering and accelerator pedal. The drive-by-wire throttle is altered electronically, leading to an engine response that is more responsive and more immediate. This means the vehicle will exhibit a reduced rate of roll and pitch, making it more responsive during direction changes and more settled during the braking/turn-in/acceleration transition when cornering. The driver can have the suspension, steering and accelerator pedal set to their personal preferences via the Sport switch.
